FRANCESCO

DINNER Lotus Series

Italian designer Francesco Lucchese dedicated his time for ZENS to study Oriental design elements using an incisively and vividly rice pattern technology that requires elaborate and traditional craft. He combined light and rice pattern rhythms in solids and voids.

Each pattern reveals ingenious symbolic details that are both of primitive simplicity and fragrant freshness.

Francesco DINNER (Lotus Series) presents a fascinating scenery of lotuses decorating the glassy water surface, releasing different refreshing aromas and fragrances.

The matching 'Lotus Coffee and Tea' units are living spheres, landing on the dining table, releasing softness and vividness.

COBBLESTONE SERIES

Cobblestones, comparable with rough ashlar, are traditional European road stones, that are laid down in a grid.

We wanted the shape to be based on our ZENS principle, Oriental lifestyle and geometry. This can be found back in the lines and curves of each element, from the African Rosewood top tray with detailed tadpole shape, to the welcoming handles, the macromolecular drainage tray (mainly sold in Asia), fruit bowl and cups.

All products are finished in fine matte-glazed porcelain that is hardened at high temperature. It makes the products durable and detailed with beautiful texture.

The home tea set comes in a complete package or can be sold as individual items. The set consists of four ceramic cups and cobblestone coasters, a ceramic teapot and a ceramic tea divider.
